The speech of Senator Davis ough to have one good effect. It is an hours statement of his own position and the pos tion of those who agree with him; and a full admission that it is a departure from the Democratic policy of 1850 and 1854, and, indeed, at all times since IS47, when our present Territorial policy began to be dis cussed. Senator Davis disapproved General Cass' Nicholson letter. He disapproved the compromise measures, and he illustrates the evils of non intervention by the transaction in Kansas. Havis and his friends have been and are now the opponents of the Democratic policy in relation to our Territories. In the present leaders of this opposition we recog nize the same men who lod the apposition South in 1850. The whole Democratic party at that time sustained the policy, and the Whige South came to the rescue ununimously almost, under the lead of Mr. Clay. A few Some twenty-five bids are made. The Democrats South opposed and protested, as awards are not yet made. did the whole anti-slavery party of the North The very same coutest is renewed; it is to be fought over again. The Southern and Northern extremes present the same views and the same ductrines, the same objections to nonintervention, or what they call Squatter Sovereignty. It was agreed by the vast majority of the people of the United States that the compromise measures of 1850 should be a finality. A very comical interpretation of this is insisted on by some shallow pates. Slavery was not to be agitated any more; nothing more was to be done in Congress on the subject. Men of scuse knew, however, that numer

ous Territories were still to be organized. and that the subject would recur as each bill "as presented-what shall be done about Africa ? slavery? The answer was plainjust what ,"as done in 1850, and ratified by the people; lea "e the people of the Territory to legislate on sla, cry at their discretion, and leave the courts to decide on the constitutionality of what they do without any could testify. A principle of compromise was found applicable to all cases that might for his home. arise. It was applied in 1854; and it seems now that Davis was opposed to its operation, and makes use of the troubles in Kansas to illustrate the evils of it. Senator Davis is attached to the Democratic party, but he is ready to abandon it and make war upon it-His allies showed their temper and purpose plainly. Winston lately made a speech in which will soon be mustered into the State Mobile, in which he said, referring to things | Gnard. at Charleston:

Colonel Vancey proposed to change the name of the Seceding Democrats to the "Constitutional Party," and ridiculed the Democratic party. Some people tell us that they don't believe in the theory of non-intersention; but it would do as a compromise to be adopted. They overlook the fact that it has been adopted after long discussion, and the question now is, shall it he broken up and abandoued? Our Territorial policy was fixed in 1850. I now pass to the next chapter in the history of this principle of non-intervention, which you will find in the proceedings of the national convention, held at Cincinnati, in 1856. The convention yielded to the Alabama and virgins, the due of wine was unknown, and the waman was taxed with immodesty whose breath smelled of the grape.
